Richland, WA 99352

Gentlepersons:

This is a request that you follow the plans outlined by the Sierra Club and other environmental protection groups and citizens, protecting the Hanford Reach. I support the DoE's preferred alternative in the draft EIS and land use plan, but more and better protection should be the focus of all natural and sensitive lands and waterways within the Hanford Nuclear Reservation. Please include all of the public lands on the Wahluke Slope, Hanford Reach and its islands, the McGee Ranch, and the Arid Lands Ecology Reserve.

The Dept. of Ecology should proceed immediately with a separate Record of Decision in order to establish

069851

the national wildlife refuge, and protect
these special places and natural values
in the Hanford Reservation.

It is time to save the best of what
is left!

Thank you for your attention to these
important matters.

Sincerely,

Jonee Gardner Miller
